

JT-210FK/620FK Paper Box Sealing Automatic Labeling Machine

This machine is specifically designed for corner sealing and labeling of boxes, such as 90 degree corner sealing and labeling of paper boxes and plastic boxes. Multiple models such as single sealing and double sealing can be selected according to customer requirements. Can be produced online or operated independently.

Characteristic:

1. PLC combined with human-machine interface, intuitive operation, simple and clear
2. The entire machine is made of stainless steel and aluminum alloy, which are rust free and comply with GMP requirements.
3. This machine has functions such as product pagination, alignment, bonding, label smoothing, counting, etc
4. The position of the label can be adjusted.
5. Can be connected to conveyor belts for use on production lines.
6. Various special models can be customized according to customer requirements.

Technical Specifications:

- Power Supply: 110V/220V, 50/60Hz, 900W
- Labeling Speed: 0-60 pcs/min
- Labeling Precision: ± 1 mm
- Product width: 30-200mm, (Special sizes can be customized for models) other measurements can be customized
- Label Size: H: 20-105mm L: 20-250mm (special sizes can be customized) other measurements can be customized
- Label reel diameter: Paper roll inner diameter 76mm, outer diameter (maximum) 360mm inner 76mm; outer 360mm(max)
- Machine Size: L2000 × W800 × H1500mm
