

FRD1000 Continuous Bag Sealing Machine

This rice bag sealing machine uses the ink roll color printing, with the need to change fonts, which can manufacture date, batch number expiry date, etc at the same time with sealing, the seal pattern and mark clear and beautiful.

FRD1000 continuous bag sealing machine is a new model of automatic plastic film sealing machine, which integrates color printing, sealing, continuous transmission of products, with clean and bright pattern on the sealing part, color selectable, instant printing and instant dry, and convenient to change the characters.

Feature

1. Electronic constant temperature system and automatic transport device.
2. Simple control interface and easy operation.
3. Body corrosion resistance.
4. Date function with print lot number.

Technical parameter

Model	FRD-1000-II continuous bag sealing machine
Voltage	110/220V 50-60Hz
Power	750W
Sealing speed	0-12m/min
Sealing width	6-12mm
Temperature range	0-300°C
Max. conveyor loading	3kgs
Printing category	Solid-ink printing
Weight	25kgs
Machine size	920*370*320mm
