## *SH-DTMP4A(B) Desktop 4 Heads Automatic Magnetic Pump Perfume Essential Oil Care Solution Bottle Liquid Filling Machine*

This magnetic pump filling machine has small machine body, it can transport bottles and fill liquid into bottles automatically. This kind of reasonable design and function is an ideal choice for small scale production. It saves working space and improves working efficiency. This filling machine is good for essential oil, chemical liquid, care solution, perfume.

### **Main Feature**

- ▶ Multiple filling nozzles can be customized as production need.
- ▶ Equipped with 316 stainless steel magnetic pump, it has high filling accuracy.
- ▶ Small machine body saves working space.

## Technical Parameters

Machine model	SH-DTMP4A	SH-DTMP4B
Power supply	110/220V 50-60HZ	
Maximum flow velocity	5500ml/min (Each nozzle and base on water)	9000ml/min (Each nozzle and base on water)
Working speed	20-30 bottles/min (based on 50-1000ml filling volume)	20-40 bottles/min (based on 50-1000ml filling volume)
Air pressure	0.3-0.4MPa	
Filling accuracy	≤±1% (For water)	
Diameter of Fling Nozzle	6/8mm	
Delay Range	0.01-999.9s	
Count Range	1-99999 Times	
Filling Volume	3-1000ml(220V)3- 500ml(110V)	
Size of air compressor connector	OD8mm	
Bottle height	< 220mm(Can be customized,max height 300mm)	
Package Size	About 1110*650*420mm	About 1110*650*420mm
Gross weight	About 50.5kg	About 51.5kg
