

SED-45ZCY1-D High Efficient Automatic Pill Making Machine

This machine has a compact and optimized overall design: efficient and convenient pill making, suitable for the production of small honey pills, concentrated pills, and water pills.

Feature

1. The strips and drug strips directly enter the rolling mold, and the strips do not need manual action.
2. Adopt stepless frequency converter, speed regulation control, safe to use.
3. Touch control panel, microcomputer control, multi-function in one machine, simple control panel, easy to operate.
4. From medicinal powder to bar making and pill making in one go, stable performance and quality assurance.

Product Parameters

Dimension(L×W×H)	1970×965×1454mm
Power supply	380 V 50Hz
Power	9.5 Kw
Compressed air	Non
Water consumption	Little L/min
Cooling water	Non
Temperature requirement	0-40 °C
Material of surface	Stainless steel

Operating size(L×W×H)	3900×3000×2000mm
Current	25 A
Main motor	7.5kw
Air consumption	Non
Pure water consumption	Little L/min
Water discharge requirement	10L/min
Moisture requirement	(For cleaning)
Material of contact parts	≤80 %
Capacity	20--180kg/h
Weight	800Kg
