

Automatic Flat Bottle Labeling Machine

Performance & Feature

1. This model applies to cosmetics, beverages and pharmaceutical industries areas.
2. Equip with PLC touch screen has two language of Chinese and English, easy to operate.
3. Labeling sending system can be changeable by adjustment of 8 - dimensional space, easily changeable to suitable for different bottles size.
4. Adopt dynamical soft rubber-covered roll? to make sure labeling quality, the structure of Cylinder clamping roller would improve the labeling precision.
5. Special label for round bottles, precision is high and will not appear bubble on the surface.
6. Air compressor is reciprocating type, to position the bottles, it can stick one or both label at one time, it is special suitable for both sides labeling.
7. We can customized machine for your request, the labeling machine can be connect with filling machine, screw capping machine, material transport pump, etc.

Technical Parameter

使用电源 Power supply	AC220V, 50Hz, 1200W
贴标速度 Labeling speed	60m/min
贴标精度 Labeling precision	± 1mm
标签最大高度 Lable max.height	205mm
被贴产品尺寸 Diameter of bottles	Φ20–120mm
标签纸芯内径 Label inside diameter	Φ76.2mm
标签最大外径 Max Label diameter	Φ350mm
整机尺寸 Overall measurement	L2000 × W1200 × H1500mm
使用气源 Air source	3–5kg.30L/min
