

KY-GF Automatic Linear Filling and Sealing

Product description:

Quantitative filling of the machine to adapt to fluid materials to complete the bottle Unscrambler filling, cover and seal. Using reciprocating piston pump filling, electromagnetic oscillation send cover capping (metal cover) or screw-cap plastic cover sealing up the production line, and before and after the production process equipment connected, the other can buy dust cover.

Technical parameters:

Model	KY-GF100	KY-GF500
Power / power	380V 1.2KW	380V 2KW
The filling accuracy (%)	$\leq\pm 1$	$\leq\pm 1$
Filling range (ml)	10-100	50-500
Speed (pcs / m)	80-120	40-60
Machine size	2400×1000×1700mm	2500×1300×1700mm
Weight	450kg	650kg
