## Screw Conveyor DTC-600/1000/2000/3000

For powder, granule, conveyor to higher hopper, equip with packaging machine, ribbon blender, linear weighed, filling machine.

### Characteristic:

DTC series screw conveyor can be powder or granular plastic materials transported within the hopper is a device-specific color mixer. The contact objects are made of stainless steel, transportation of raw materials not subject to the process of pollution, do not bring any outside objects, enabling the production process to achieve full closure of automation. Easy to install and can be moved, such as multiple spices machine using the same material, just a platform feeder for multiple spices simultaneously feeding machine, eliminating the trouble of artificial feeding, the feeding work has become more secure, less time and more effort.

### Technical parameters:

Model	Baiting power (kw)	Shoving power (kw)	Feeding diameter (mm)	Baiting quantity (kg/h)	Case content (kg)	Case dimension (mm)	Weight (kg)
DTC-600	0.75	0.75	76	600	80	650x650x800	80
DTC-1000	1.5	0.75	102	1000-3000	150	900x850x860	150
DTC-2000	1.5	0.75	120	2000	200	1200x800x800	200
DTC-3000	1.5	0.75	140	3000	250	1600x800x800	300
