

HTZH-200 Cartoning Machine

High speed HTZH-200 box cartoning machine is new model which innovation design base on bringing in foreign advanced technology, also strictly according to pharmaceutical industry "GMP" standard to manufacture. With high efficiency, high performance production capacity, leaflet folding and conveying, carton opening and forming, posterior pushing structure and related technology all reach Europe and USA standards; Simple design and posterior continuous pushing structure makes operation and maintenance more convenient; three equal rotation opening carton and under twice pre-forming device to ensure that carton open and form completely This model is automatic high speed continuous cartoning machine which is high performance product incorporates pneumatic-photo-electro-mechanic. It suitable for automatic inserting ALU-PVC blister, bottle, soft tube, soft AL/AL strips and pouch into carton, also can link to matching machine to form production line.

Features:

- No product do not give leaflet, no leaflet do not give carton.
- Products not packed into the right position, machine stop and alarm. If no cartons, machine delayed stop and alarm.
- Continuous no leaflet, machine stop and alarm.
- Air pressure and vacuum pressure too low, machine stop and alarm.
- Back pusher device is more convenient.
- Hand wheel can help to change size easily.
- Main driving system has over-loading protecting.
- Servo feeding products system.
- Electrical parts use international famous brand.
- Automatic display packing speed, fault and count.

Technical Parameters:

Material Type	Number Reference
Box Speed	160-200 boxes/min
Carton Paper Requirements	250-350/m ²
Size Range	L: 70~180mm, W: 35~80mm, H: 14~50mm (Long*Wide*High)
Compressed Air Pressure	≥0.6MPa
Air Consumption	20m ³ /h
Voltage	380V/50Hz
Main Motor Power	5KW
Machine Size	4800*1600*1860mm
Weight	3000KG
