

YX-6D Automatic Vertical Twisting Capping Machine

This machine is suitable for various bottle shapes. When it needs to replace bottle or cap, you only adjust the position of the parts, no need to replace any accessories, and it will not be screwing caps if it is without bottles during the capping process. The cover lid assortment, the screwing cap and the clipping bottle speed can be respectively frequency-adjusted and adjusted to meet the screw caps of various specifications within the specified range.

Main features:

1. This capping machine adopts photoelectric control positive and negative cover, which improves the speed of supplying cover lid and the qualified rate.
2. Adjustable on both sides of the twisting capping wheel
3. The gas consumption is reduced to achieve the effect of sanitation and energy saving.
4. Fast speed capping and high qualified rate.

Technical Parameters:

Production Speed	≤ 8000 b/ h
Filling volume	40-1000 ml
Applicable size of bottle and cover	Dia. of bottle: Φ35-96 mm Dia. of cover: Φ12-50 mm
Air Pressure	0.5-0.8 mpa
Power Supply	AC 220V. 50/60 hz
Power	2.0 kw
Weight	~ 750 kg
Machine Size	2000 x 1200 x 2000 mm
	(LxWxH)
