

## ZP35B/D Rotary Tablet Press

ZP-35B/35D Rotary Tablet Press Machine with dual feed double the piece, continuous piece, making the disk rotation twice a week to complete filling, quantitative, pre-press, the film process. The external machine is fully enclosed, of stainless steel, the internal table with stainless steel turret face is specially disposed keeping the luster and prevent cross-contamination, in line with GMP requirements. Fitted with transparent glass doors, can be clearly observed for tablets press, and also can be fully open, easy-to-house cleaning and maintenance. All controllers and operating parts are reasonable layout, the use of frequency control devices operating speed so that is easy operation, smooth rotation, accurate and secure. The machine is equipped with overload protection devices and other safety devices to ensure safe and stable operation.

### Technical parameters:

Model	ZP-35B	ZP-35D
Die No.	35 sets	35sets
Production capacity	15000pc/h	15000pc/h
Max. pressure	80 kn	60 kn
Max. Tablet Diameter	13mm	13mm
Filling Depth	15mm	15mm
Max. Tablet Thickness	6mm	6mm
Rotating Speed	14-36r/min	14-36r/min
