

## *Capsule Counting Machine JF-16*

This type tablet counting filling machine has faster speed and which is vibration design, especially for small pills tablets.

### **Production Details**

#### 1. Counting Lane

Tablet capsule counting filling multistage vibration lane, suitable for 3-20 mm materials can be effectively separated

#### 2. Material Observation Window

Semi-automatic capsule counter material quality can be observed at any time and added in time when insufficient materials is found

#### 3. Counting Photoelectric Head

Drug Counting Machine filling accuracy rate over 99.8%

#### 4. Patent Flip-Flop

No Material damage when opening and closing Parent No: ZL 2016 2 0909949.8

#### 5. Intelligence Monitoring

Japan Panasonic bottle photoelectric eye, high stability more convenient to adjustment

#### 6. Siemens /Delta touch screen

With many extended functions; visualization of operation parameters, motor, voltage overload protection reminder

7. Dust collection box  
 Centralized dust collection in box, reduce pollution

### Technical Parameters

Item	JF-16(Special Type)
Applicable target	#00-5 capsule, soft capsule, Ø 5.5-20 tablet, shaped, sugarcoated tablet and 3-20 pill
Production capacity	40~100 bottles/min
Description for production capacity	Capacity is subject to the type and size of the bottles and raw materials, as well as the quantity filled per bottle.
	● BPM=Bottles per minute
Working range	2-9999 grains (tablets) adjustable
Power consumption	220V/50HZ/ 1.2KW
Size(mm)	1360×1650×1650mm
Filling error	≤ 2‰ bottles
Material	316L+304
Control System	MCU HMI
Pressed Air Supply	0.6 Mpa
Weight	550Kg
