Automatic Carton Erector JG-H01

Fully automatic horizontal case erector mainly suitable for bigger scale production line as the working speed can reach to 30-50 cartons per minutes, it also perfect for the production line which the products can be easily stacked and pushed, such as cartons or carton bundles, soaps, etc.

Features:

1. High working speed.
2. Horizontally unpack boxes
3. Alarm when lack tape or case.
4. Horizontal carton storage, can add empty case at any time, without stopping machine, improving efficiency.
5. With the blade protective device to avoid accidentally stabbed when operating the machine
6. Manual adjust carton size, suitable for the same specification carton sealing at the same time.
7. It can be used alone, and also supporting the use of automation end of line packaging.
8. Easy to operate, simple maintenance, stable performance, high speed, high efficiency and durable.

Specifications:

Model No.	JG-H01
Package Size: (mm):	$250 \leq L \leq 450$
	$150 \leq W \leq 400$
	$100 \leq H \leq 300$
Working Speed : (Cartons/min)	50
Apply Tape (mm)	2" 2.5"
Machine Size (mm)	L3120×W1250×H1740
Power Supply :	220V /380V, 50 HZ
Air Pressure:	6kgf/cm ² ,450NL/min
N.W. /G.W. : (kg)	1200 / 1300
