

Multifunctional Vertical Cartoning Machine ZD-50

The Vertical Cartoning Machine can be divided into two types. One is used for small bags into carton and the other is used for bottles into carton. Need to be equipped with Sachets Packing Machine or Stick Pack Machine.

This machine is suitable for stick bag or bottle into carton. Realize the following functions: leaflet fold (1-4 folds) and feeding, leaflet detecting, carton opening and forming, products and leaflet pushing into carton. Automatically reject lacking of leaflet or product and finished product out.

Optional function:

Automatically load the folded instructions, printing batch number, sealing carton with tuck-in or hot melt glue device.

Features:

1. This machine is specially designed for manufacturers with a wide variety of packaging carton sizes and small output.
2. Low cost and small floor space. Suitable for boxes of various sizes.
3. This machine is a multi-functional vertical Automatic Cartoning Machine, and it takes a short time to change specifications and molds.
4. 304 stainless steel housing
5. Advanced PLC control system, 5.7-inch color touch screen control panel, you can easily set and change packaging parameters.

Application:

This vertical Carton Box Packing Machine is suitable for the pharmaceutical industry, food industry, cosmetics industry, and electronics industry. So this machine can also be customized as coffee packaging machine and ketchup packaging machine, etc.

Technical Parameters:

Item/Model	ZD-50
Packing speed	20-50 boxes/min
Maximum size of carton	200 x 120 x 120m/m
Minimum size of carton	60 x 20 x 20 m/m
Motor Power	1/4HP 15:1
Power supply	Single phase 220V 50/60HZ
Machine noise	≤80dB
Gas source	0.5-0.8 Mpa
Gas consumption	260L/min
Dimensions	L 1100 x W 1500 x H 1900 mm
Total Weight	450Kg
