

KL-100ZS High Accuracy Granule Filling and Packing Machine

Features

- Suit for 20g to 500g granular material product packing (weight is according to product material).
- Inverter and power switch are all imported with advanced technology.
- Packaging speed and length of bags can be set on the touching screen.
- Optional coding equipment and with 1 to 3 lines for batch number and expiration date.
- High-sensitivity photoelectric color tracing get more accuracy.
- Intelligent temperature controller and excellent heat balance.
- Using screw to measure, high-accuracy per bag.
- Bag-making equipment can be changed according to specific requirement of customers and products.

Application & Bag Type

Application: Suitable for packing loose granular materials in small package in medicine, food, condiments, chemical industry. Such as peanut, melon seeds, mung beans, red beans, sesame, plant seeds etc.

Technical Parameters

Model	KL-100ZS
Measurement	Volumetric Cup
Packing Speed	Max. 70 bags/min
Packing Capacity	Max. 100mL
Bag Width	Max. 100mm
Bag Length	Max. 180mm
Film Thickness	0.08-0.10mm
Bag Pulling	Stepping motor bag pulling
Bag Type	Back Sealing / Three Side Sealing / Four Side Sealing
Sealing Type	Straigh Line / Netting Line / Plain Line
Cutting Type	Tooth / Flat / Round Corner
Power	220V, 50Hz, 1.2kW(Customized)
