

## *Powder Filling Machine BSPM-C*

Our semi-automatic filling and packing machine is designed according to the National GMP standard. A jump shot is pure. Dust can be collected, table height can be adjusted, can store more than 10 recipes for later use.

### **Main Features:**

1. Powder packed in 10-5000g bottles or bags.
2. The AUGER is driven by high precision servo motor.
3. Stir in the hopper to ensure that the powder is fed into the screw.
4. The touch screen displays Chinese/English or user-defined language.
5. The mechanical structure is reasonable, the size parts are easy to change and clean.
6. This machine is suitable for all kinds of powder products replacement accessories. We use a brand-name electric car, relatively stable.

### **Product Usage:**

- This machine is suitable for many kinds of powder such as:
- Milk powder, flour, rice powder, protein powder, Seasoning powder, chemical powder, medicine powder, coffee powder, soy flour etc.

**Technical Data:**

<b>Model</b>	<b>BSPM-C</b>
Dosing Technique	By auger
Filling range	10-5000 g
Accuracy	$\leq 100\text{g}$ , $\leq \pm 2\%$ ; $100 - 500\text{g}$ , $\leq \pm 1\%$ ; $\geq 500\text{g}$ , $\leq \pm 0.5\%$ (depend on product property and filling weight)
Speed	20~40 bags/min (depends on worker handle speed)
Container Model	Can, Bag, Bottle, etc.
Hopper size	70L
Voltage	single-phase 220V, 50Hz (or can be customized)
Motor	2.5KW
Overall size(mm)	1140×970×2030mm
