

Automatic Scissors L-Bar Sealing Machine ZF-A5645

ZF-A5645 Sealer is a full-automatic sealing machine. The sealing knife of solid aluminum products is designed as a whole. The packing effect is very good. The working size of the sealing machine is easy to adjust and operate. Separate needle wheel design can help shrink packaging well. It is suitable for shrink packaging of electronic products, hardware, software, food, printing, pharmaceutical, beverage, mineral water, cans, glass bottles, etc.

Features

1. It meets CE requirements and has CE certification.
2. Three pairs of electric eye induction products, with wider application range and smoother production.
3. Four sealing protection proximity switches can better protect the sealing knife and products and realize safe production.
4. Controlled by four groups of brake components, the operation is more stable, and the bag length is high in accuracy, ensuring the packaging effect.
5. Touch screen operation, simple operation. The width and height can be easily adjusted, and it is very convenient to change products of different specifications.
6. The conveyor belt is 26M/min, and the packaging speed is the fastest 40 packers/m

Specification

| Model: | ZF-A5645 |
|-------------------------------|----------------------------|
| Machine size L*W*H(mm): | 1795*880*1570 |
| Sealing blade size L*W(mm): | 565*460 |
| Product size range L*W*H(mm): | (90-450)*(50-350)*(10-120) |
| Power supply: | 1P/220V/50HZ/3KW |
| Net weight: | 360KG |
