

Semi-automatic Labeling Machine with Coder T30114

It's belong in semi labeling machine, adopt inhaling label and then stick for all kinds of plane surface of product. Like flat bottle of cosmetic, packing box, plastic cover ect. To change the label cover mechanism, labeling can be finished on uneven surface, like concave surface, curved surface and so on. To change relevant management tool, labeling can be operated on not regular shape's product. Select match color ribbon printer or inkjet printer to print product date and system's number on label, let integration of printing - labeling become true. Can be sued match with various assembly line.

Specifications

Model	T30114
Labeling speed	10-25p/min
Labeling accurate	±0.5mm
Product scope(Length)	10-180mm
Product scope(Width)	10-180mm
Product scope(Thickness)	0.2mm~120mm
Label inner diameter	40mm/76mm
Label out diameter	≤Φ350mm
Power	200W
Voltage	110V/60HZ or 220V/50HZ
Weight	48KG
Outsize	840x430x770mm(LxWxH)
