

GK18/36 (Beans/Grains) Granules Filling Machine

This is the latest granules/beans/grains filling machine which designed and produced on the basis of similar machines at home and abroad. It is high capacity (18/36 filling heads for option), running steady, no-can-no-granules, and it will stop if the machine goes backward when empty cans enter into it, alarms while malfunction happens.

The machine could fits beating structure for granules feeding and clean measure cup. It adopts non-contact inspection, touch screen operation, frequency control, convenient for operation and maintenance. It is an ideal machine for beans, corns and other granules' filling.

主要技术参数 Main technical parameters

| 型 号 Model | GK18 | GK36 |
|------------------------------------|----------------------|----------------------|
| 封罐头数 The number of capping head | 18 | 36 |
| 适用罐径 Can Diameter | Φ52~99mm | Φ52~99mm |
| 适用罐高 Can Height | 50~160mm | 50~160mm |
| 生产能力 Production capacity | 0~200b/min(与灌装量有关) | 0~400b/min(与灌装量有关) |
| 电机功率 Power | 2.2kw | 3kw |
| 整机重量 Weight | 1500kg | 2000kg |
| 外形尺寸 Dimension | 2000 × 1800 × 2000mm | 2440 × 2000 × 2000mm |
