

RZ-2 Automatic Packaging Machine for Plastic Bag

RZ-2 automatic packaging machine uses the plastic bag to package the dairy products such as pasteurized milk, fresh milk and yogurt, and the seasonings such as soy sauce and vinegar.

Feature:

1. This machine could stably run with high efficiency.
2. The filling work could be done accurately in the fully automatic process.

Product Specification:

Model	RZ-2
Filling volume (ml)	100-500
Production capacity (packs/hour)	5000-6000 (250ml/pack)
Filling heads	2
Packaging form	Sealing three sides of the plastic bags
Control method	PLC+human-computer interface
Air consumption (M ³ /min)	≤0.5
Operating air pressure (Mpa)	≥0.6
Gross power (KW)	4.5
Gross weight (kg)	1100
Dimension (mm)	1800×1250×2900
