

ZLD-1 A series Stand-up Pouch Filling and Cap-Screwing Machine

This machine is suitable for packing jelly, soy milk, yoghurt, mineral water, juice, ice cream, edible oil, seasoning, scour and so on.

We also can add some function according customers requests.

Functions:

This machine is fully automatic production line with such processes: automatic pouch-loading, fixed-position filling, cleaning spout, cap feeding and inserting, pouch position testing, cap screwing (applying magnetic adjusting torque for rather stability), quality production output.

Technical parameters:

Parameters	Contents
Packing speed	600-1000 pouch/h
Filling volume	30ml-500ml
Power	1.5 KW
Power source	220V/50Hz (three phase four line)
Air pressure	0.5-0.7Mpa
Air consumption	0.45m ³ /min
Out dimension	1800× 1200 × 1800mm
Weight	1200kg
