

## *Flow Wrap Machine P-FW-400*

Model P-FW-400 of flow wrap machines available with us is offered at cost-effective prices. These can be customized as per the demands of our clients and are extensively used to pack products of various shapes such as cubical, cylindrical & others. They can run on various types of heat sealable laminates/ films that are printed/ unprinted and has the variable speed of 25-250 packs per minute. These machines are installed with adjustable pouch length mechanism, which assists in the reduction of wastage on packaging material. Moreover, these are incorporated with built-in photoelectric system with lining adjustment for the film feed.

### **Salient Features:**

- Versatile performance
- Easily configurable
- Reduces packaging waste
- Easy to handle
- Reliable performance
- Motor controlled
- Efficient power consumption
- Excellent production rate
- Durable
- High speed
- Low maintenance and low servicing

**Technical Specifications:**

<b>Production rate</b>	25- 250 pack per minute (depending on the size of the product)
<b>Electric power consumption</b>	4 kw
<b>Pouch dimension</b>	L- 70- 420 mm W= 140 mm (max.) H= 80 mm (max.)
<b>Maximum roll width</b>	400 mm
<b>Machine weight</b>	1000 kg (approx.)
<b>Motor specifications</b>	2 / 220v single phase
<b>Machine dimension</b>	L= 146 inches W= 38 inches H= 64 inches
