

Automatic Packaging Machine series JIR-160A

Technical characteristics:

- Step motor drawing film, screen adjustment parameters, simple operation.
- With powerful extended function, joint packing device, punching device, satisfied with different requirement.
- Bag-making filling, measuring, sealing, printing date, product output in one operation.

Application:

Suitable packing application: leavened food, peanut, coffee, biscuits, granule, etc. packing range within 500ml.

Technical parameters:

Machine type	JR-160A
Width of packaging film	320mm
Bag length	30-200mm
Width of bag	50-150mm
Measuring range	50-500ml
Packing speed	30-80bags/min
The largest coil diameter	300mm
Packaging film thickness	0.04-0.08mm
Packaging film material	OPP/CPP.OPP/CE.MST/PE/PET/PE
Power Specifications	220V 50/60Hz 2.2kw
Machine weight	350kg
