

Chain Bucket Packaging Machine 320B

1. High precision structure, simple operation easy maintenance.
2. The CPU single chip microcomputer and stepping motor control, bag length setting is convenient and accurate.
3. The frequency control of motor speed, simple, quick, save time province membrane.
4. From filling, bag making, date printing, inflatable, exhaust, one-time finish

Technical parameter:

The machine model	Automatic packaging machine 320B
The width of the film	120-320mm
The length of the bag	50-200mm
Width of the bag	50-150mm
Film diameter	MAX.320mm
Measuring range	50-500ml
Packing speed	Packages, 35-70 minutes
The power supply specifications	220V 50/60HZ 2.2KW
The machine size	L970 X W680 X H1950
The machine quality	About 350 kg
The thickness of the thin film	0.04~0.07mm
