

Tea Bag Packing Machine YS-169

This machine is suitable for green/black tea, medical tea packing, inner bag and outer bag was forming at one time.

Feature:

1. Outer plastic film was controller by stepper motor, running stable and positional accuracy.
2. Adopt PID adjusted temperature controller, the temperature control more accurate
3. Adopt PLC control all machine working, operation in touch screen and easy operate.
4. Material used in stainless steel 304, foods grade.
5. Pneumatic components adopt import, working stable.

Parameter:

Model : YS-169

Sealing mode : three side sealing

Filling volume : 2-8 gram per bag

Inner bag size : length 50—75 mm ; width 50—75 mm

Outer bag size : length 85—120 mm ; width 75—95 mm

Mark size : 25X20mm

Power : 220V/50HZ single 3.7kw

Heater : top vertical heating element (inner) 110V 350W 2pcs

top horizontal heating element (inner) 110V 350W 2pcs

Mark heating bar : 110V 100W 2pcs

Bottom vertical heating element (outer) 110V 350W 2pcs

Bottom horizontal heating element (outer) 110V 350W 2pcs

Weight : 650KG

Size : 1400x800x1800 (mm)
