

Tamper Evident Band Applicator SVA-150(CE)

Auto Body Label Sleeve Applicator, SVA-150 is designed with SUS frame to match production requirement of Foods & Pharmaceutical industries. Modularized machine body & assemblies for quick adjustment & parts change. Cutting Unit is designed with quick change feature to save changing time of cutting blade. Also, machine could be installed remote control feature to monitor production.

The market trend of packaging concept is light, thin & mini in 21st century. Especially, environment friendly is the major stream. Basing on the modern trend, Benison & Co., Ltd. developed the MD Shrink Tamper Evident Band Applicator giving alternative to customers. SVA-150 designed to work with ECO film of PET or PLA. It can not only save film cost, but can also protect our environment to promote reputation of company.
