

Horizontal Flow Wrap Packing Machine Support Tablets And Capsules KWPW-300B

Specification:

- Specially for al/pl blister, pillow bag and packing into cartons.
- The line machine integrating al/pl blister, pillow bag, detection, rejection and cartoning packing into an organic whole
- Simple operation and PLC touch screen adopted. Change parts can special designed by customer's requirement.

Technical Parameter:

Finished package size(mm) Length	65-190
Width	30-110
Height	5-40
Vertical and horizontal sealing strength (Nuton/mm ²)	>15
Packaging speed (bag/min)	40-230
Packaging film width (mm)	80-250
Power	AC220V 60HZ 2.4KW
Weight (kg)	800
Dimension (L*W*H)(mm)	3780*640*1560
