

Auger Filling Machine

We at Filling Machine are one of the foremost Auger Filling Machine Manufacturer and Supplier in India that give very correct and exact filling because of the precise design of auger screw, most up to date technology based clutch brake and its modernized micro processor control system. We manufactures Auger Filling Machines and we use very high quality raw materials as well as utilize the most updated manufacturing procedures. These machines are guaranteed to offer very high output. Auger Filling is most appropriate technique used for packing materials available in powder form. They are available at the most affordable rates and can fill an array of materials such as granules, semi liquid, grease etc.

Features:

- Perfect for filling multiple pack sizes
- Up to date advanced design for most outstanding performance
- The product touching parts are made-up of food grade materials
- Strict quality control
- Trouble-free operation and low maintenance
- Energy saving
- Low wastage Disposal
- Changeable pouch size and filling volume
- Strong and durable machine
- Least power consumption & admirable production

Applications:

Ideal for filling Free Flowing Granules like Tea, coffee, Rice, pulses, spices, seeds, salt, sugar, etc

Technical Specification:

Filling Range	0.5 gm to 1000 gm
Speed	6-25 fills per minute.
Packing Material	Pouch, Jar, Bottle.
Turret Drive Electric Motor	0.75 H.P / 415 V / 1400 RPM.
Turret Telescopic Cups S.S 304	-
All Contact Parts in S.S. 304 Standard	-
