

GOLDEN LIN

Automatic Rotary Cup Filling & Sealing GL-122502A

Applications:

Dairy, yogurt and coffee

Features:

1. Rotary type filling and sealing operations
2. An economical model designed for small lot production
3. Aluminum foil and sealing mold can be changed to suit various cup types
4. The piston filling device permits adjustment of filling quantity
5. Employ PLC control for added convenience of operation
6. The machine is constructed of stainless steel to meet sanitation standards
7. Equipped with a 3-color warning light for clear warning in case trouble occurs on electric control or air system
8. Available to equip with date coder (optional equipment)
9. The rotary table speed is controlled by a frequency inverter, providing variable speed change
10. The product outfeed mechanism employs vacuum suction

Specifications:

Cup Capacity	100-500g
Production Rate	1,200-1,800 cups/ hour
Air consumption	140 L / min
Power Source	220V, 60Hz, single, phase, 1200W
Machine Dimension	L1300*W1300*H1800mm
Packing Dimension	L1450*W1450*H1950mm
Net Weight	350 kgs
Gross Weight	550 kgs
