

FF-C02A Digital Control Particle Filling Machine

The FF-C02A digital control particle filling machine is suitable for packaging materials with good fluidity such as washing powder, dry seasoning, seed, salt, feed, mono sodium glutamate, white sugar and so on. The digital control particle filling machine can weigh and fill the powder and particle into preformed bags, bottle, cans etc.. It can fill materials from 100g to 2500g according to the materials. It is suitable for flour, milk powder, chili powder, bean, peanut, nuts etc.

Technology data sheet:

Model	FF-C02A digital control particle filling machine
Voltage	AC220V/50Hz or 110V/60Hz 380V/50Hz
Power	2200W
Packing Range	100-2500 (g)
Weighing Range	100-2500 (g)
Measurement Method	Weighing type (industrial electronic scale)
Feeding Method	Four vibrators, Three-stage feed
Material	Steel Stainless (201/304)
Error(per bag)	0.5% (According to product)
Packing Speed	700-2000bags/h
Dipper Capacity	320*320*400(mm)
Machine Net Weight	200kgs
Machine Size(L*W*H)	720×720×1900mm
OEM Service	Acceptable
