

## DCS-series Chicken Powder Packaging Machine

The weighing packaging machine is a quantitative bagging device that is controlled by a computer and combines mechanical feeding with electronic weighing. The machine has the characteristics of accurate measurement, intuitive display, simple operation, reliable performance, small noise, stainless steel machine, strong corrosion resistance and low price.

### Technical Parameter:

Model (double bucket)	Packing specification(g)	Allowable error(g)	Working speed(bag/min)	Power(w)	Power supply(V/HZ)
DCS-0.25 Double head	30-250	$\leq \pm 2$	15-40	500	220/50
DCS-1 Double head	100-1000	$\leq \pm 3$	сен.32	500	220/50
DCS-2 Double head	200-2000	$\leq \pm 4$	авг.28	500	220/50
DCS-5 Double head	500-5000	$\leq \pm 10$	июл.26	500	220/50
DCS-10 Double head	1-10kg	$\leq \pm 15$	06.дек	500	220/50
