

Semi Automatic Shrink Packaging Machine FBW-AD

Introduction: It is a fully automatic shrink film cutting and package machine, widely used in pipe lining work for large quantity package with high work efficiency, installed with pin hole device, adjustable film feeding system and adjustable conveying table, meets different requirements for different products and it has a kissing device for packing the small products.

Features

1. Double instruction lights system to prevent the mistake of sealing and protect the operator meanwhile;
2. Double size fan carrying system ensure the perfect of sealing;
3. Imported AC contractor, the temperature be controlled by automatic;
4. Imported frequency converter, stepless speed regulation;
5. Super cooling system to ensure the perfect shape of products quickly offer shrinking;
6. The control panel be operated with safe and simple;
7. The inputting position can be adjustable precision base on the size of products;
8. The size of tunnel can be customized for your request;
9. Up and down large power fan system to assure the excellent effect of shrinking in onetime

Technical Parameters:

Facility type	BW-150A type
Facility external size	L5050×W3300×H2100mm
Wrappage max size	L600×W400×H350mm
Shrinkage film size	PE,PVC,POF
Shrinkage thermo thickness	0.03-0.15mm
Thermo shrinkage tunnel temperature	160 - 260°can adjust at will
Max output per minute	8-12bag
Facility power	18Kw
Actual power	15Kw/hr
Pressure requirement	380/220V
Facility weight	1.2T
Fan machine	1.1Kw 2set 380V, 65W 4set 380V
