

## *Fully Automatic Small Packing Machine*

The round tea bag machine can automatically complete the functions of bag making, measuring, filling, sealing, slitting, counting, batch printing, etc. It can be configured according to customer requirements.

Application in the automatic packaging of food, and loose, non sticky and fine granular or coarse powder materials of chemical products, such as soup, coffee, granules, desiccant, monosodium glutamate, sugar, salt, cereal, Chinese herbal medicine powder and other particles, thick powdery materials.

### **Features**

1. The machine automatically finish the bag-making, weighing, filling, sealing, cutting, counting can be completed at one time.
2. Adopt advanced microcomputer controller, drive stepper motor control bag length, stable performance, easy adjustment and accurate testing.
3. Control system automatically matches the actions, with high accuracy. Bag length adjustment is simple and accurate.
4. Packaging speed and length of bag can be adjusted continuously within the rated range, do not need to change parts.
5. The design uses a unique embedded sealing, strengthening type heat sealing mechanism, intelligent temperature control instrument temperature control.
6. Has a good thermal balance to adapt to a variety of packaging materials, good performance, low noise, sealing lines clear, strong sealing.

## Product Specification

Bag Size	φ 70mm
Packing speed	10-40bag/min
Measuring range	1-5g
Power supply	220V/50Hz/1.6kw
Gas source	≥0.6m <sup>3</sup> / min
Whole machine weight	400KG
Dimensions	1160(L)×850(W)×1740(H)mm
