

OC-320T Envelope Tea Bag Filling Packing Machine

Vertical type tea powder filling packing machine, volume cup measuring for different types of grinded tea powder. Machine included inner bag and outer bag on machine, can be add with label paper and thread device. Lower cost and multi functional.

Machine description:

1. The inner and outer bags are formed at one time, which avoids direct contact between human hands and materials, and is clean and hygienic to improve efficiency.
2. The inner bag is made of filter cotton paper, which can be automatically brought with thread and label, and the outer bag is made of composite material
3. The machine can choose the packaging form with line and label

Parameter:

Model	OC-320T
Measurement	volume-down
Inside bag size	L:50-70mm; W:50-80mm
Outside bag size	L:80-120mm ; W:70-90mm
Tag size	L:20-40mm, W:40-55mm
Measurement Range	3~15ml/bag
Power/Air consumption	220V,50/60HZ,2.6KVA/0.2-0.5Mpa
Ultimate capacity	3.5KW
Machine Size	(L)900×(W)610×(H)1500mm
Machine Weight	500Kg
Machine Wrapping	Standard Export Plywood Case
Packing material	Filter tissue paper, cotton thread, label paper (plastic coated paper), aluminum foil paper
