

CXD-80 Automatic Powder Packing Machine

CXD-80 Powder Back-Side & 3-side Sealing Packing Machine. Automatically measuring volume, making bags, filling, sealing, cutting, printing the lot number and cutting easy tearing notches, making chain sachet, finished product conveying.

Introduction

Automatically measuring volume, making bags, filling, sealing, cutting, printing the lot number and cutting easy tearing notches, making chain sachet, finished product conveying.

Applicable for the powder products, such as flour, starch, milk powder etc.

- PLC control system, wide vision pressure screen
- Compact structure, easy to operate and maintain
- Intelligent temperature controller, firm sealing, and efficient packaging.
- Cursor sensing, fast bag-making, and low noise.
- Stainless steel casing

Specifications

Model	CXD-80
Sealing Type	Back-seal & 3-side seal
Packing Speed(bag/min)	20-40
Bag Size(mm)	L:50-140
	W:30-80
Measurement Range(g)	1-20,20-50
Power	220V/110V, 50-60HZ, 1.5Kw
Weight(kg)	195
Dimension (mm)	800x700x1550
