

## Automatic Bottle Washing Machine

### Brief instruction:

This bottles rinse machine adopts continual tracking to spray and wash bottles. High efficiency, well effect of rinse, it is suitable for different specifications of glass bottle and plastic bottle. Widely range, easy operating, convenient maintaining.

### Features:

1. This machine applies to foodstuff, pharmacy, cosmetic, chemical and pesticide industries.
2. The machine is controlled by PLC and touch screen.
3. Conform to GMP standard.
4. According to different speed, the machine can equip with 16-24 washing heads.
5. It can contact with water or compression air for washing.

### Parameter:

Speed	6000-8000 bottles/hour
Numbers of Manipulator	24
Specifaction of bottles	Round bottle: $\phi$ 40mm- $\phi$ 100mm
	Rectangle bottles: 106mmX88mm
	Height of bottles: 150mm-320mm
Time of rinse	3 seconds (Max)
Time of deterring	2 seconds (Max)
Working Pressure	0.6-0.85Mpa
Air Consumption	0.8M3/Min
Power	2.2kw
Voltage	380V $\pm$ 5% (3Phase 5 wire)
Medium of rinse	germfree water
Net Weight	1000Kg
Size	2000 $\times$ 1500 $\times$ 2200MM
