

Cube Mixer Type

Cube Mixer is based on a movement, which through its tumbling effect produces a homogeneous mixture in the shortest possible time. The product to be mixed is treated very gently. The cube mixer can be attached to the universal gear (UD). The mixing movement of the product in the mixer is deflected and interfered with by 3 mixing rods made of stainless steel.

Technical Specifications:

Gross Capacity	3 to 3.5 L
Working Capacity	1.5 to 2 L
Dimension in mm	250 x 250 x 260
Net weight in kg	7
Gross weight in kg.	8
