

Automatic paper wrap round noodle packing machine

Category: noodle packaging machine

Product Name: Paper Automatic noodle packaging machine

Product Type: BHZ16 / 500-CK

Work object: a long strip of pasta noodles

Noodle Length: 200-240mm

Noodle thickness: 0.6-1.4mm

Noodle width: 0.8-3mm

Packing speed: 15-20 bags / minute

Metering range: 300-500 grams

Packing range: 300-500 grams 700-1000 grams

Equipment Size: 4980 * 980 * 1440

Composition: Single bar Binder, small hoist, wrapping machine, can be customized according to customer demand.

Purpose: AutoComplete weighing noodles or pasta bar material, strapping, transport, wrapping automatic packaging.

Advantages:

1. Packaging machine adopts imported PLC control electrical components; Host Frequency; large adjustment range; use a servo-controlled strapping more stable, with intelligent acceleration and deceleration,
2. With a small, tight packing high packaging speed and other characteristics.
3. Can automatically complete knuckle, back cover.
