

## *TMP-200B Automatic Cellophane Packaging Machine*

### **Product Description:**

TMP Series of Automatic Tridimensional Cellophane Packaging Machine, which is mainly applied to the outside decoration packaging of square-shaped box-packaged things of such industries as medicine, food, daily chemistry, cosmetics, video products rubbers, IT etc.

For example, the medical box, chewing gum, healthy products, tea-leaf, cubic sugar, condom, eraser, mosquito-repellent incense, cigarette, tape, VCD (CD) disk, poker, soap, square-shaped battery and floppy disk etc. It has the function of anti-moisture and anti-falsification, and also enhances the product level and additional value. It can combine the box-packaged machine and code-spraying machine to manufacture.

### **Main Features:**

1. Compact and reasonable structure, stable and advanced performance, simple and convenient operation and maintenance.
2. Adopt multi-function digital-indication frequency converter, and steeples variable speed.
3. The digital indication of thermal seal temperature is clear.
4. Have the function of automatic feeding and automatic feeding and automatic counting etc.
5. In the transmission part, there are all varieties of protection mechanism and indication of malfunction.
6. Film-feeding clutch for trial operation is set without the wasting of packing material.

### **Main technical parameters:**

Package material	BOPP film, PVC film, etc
Production capacity	30-100 packs/min.
Packaging size	L (60-200) xW (40-120) xH (10-60) mm
Power of supply	AC220V 50Hz, 3Kw
Weight	900kg
Outline dimensions (LxWxH)	2500x1000x1500mm
