

## Automatic Gusset Bag Packing Machine

Automatic Gusset Bag Packing Machines are inventive packaging solutions designed to mechanize the process of filling and sealing gusset bags. These machines embrace advanced technology to handle diverse products which range from grains to powders and liquids.

### Technical Parameters

Machine Type	Automatic Gusset Bag Packing Machine
Bag Type	Gusset bags (e.g., quad seal bags)
Packaging Material	Various types of flexible packaging materials
Capacity	Variable, depending on bag size and product
Bag Size Range	Adjustable, typically ranging from (L) 100-500mm x (W) 80-300mm x (H) 30-100mm
Power Supply	220V, 50Hz/60Hz
Power Consumption	Depends on the machine model and configuration
Sealing Type	Heat sealing
Control System	PLC (Programmable Logic Controller)
Touchscreen Interface	Yes
Packaging Speed	Variable, typically ranging from 20-60 bags per minute
Accuracy	±1-2%
Material Feeding System	Automatic
Air Pressure	0.6-0.8 MPa
Machine Dimensions (LxWxH)	Variable, depending on model and configuration
Weight	Variable, depending on model and configuration
Optional Features	Date coding, vacuum sealing, nitrogen flushing, zipper applicator, etc.
