

SL-5214S Full-Automatic Lipstick Bottom Labeling Machine

Features

1. Suitable for bottom labeling of make-up cosmetics
2. High-precision servo motor, the labeling speed can reach 90 pieces/min
3. The precision cam intermittent divider divides the material to ensure the accuracy of labeling
4. The compass adopts a universal design. It is not necessary to replace the compass when changing the labeling variety, just replace a set of corresponding positioning fixtures on the positioning clamping device.
5. The label missing label removal device adopts SICK photoelectric sensor to identify whether there is any missing label and reject unqualified products.
6. A hot stamping machine can be attached and a movable design
7. The whole machine is made of aluminum alloy, dustproof cover, safety switch

Technical Parameter

- Labeling speed: up to 90 pieces/min
- Labeling accuracy: ± 1 mm
- Maximum label width: 100mm
- Applicable paper roll inner diameter: $\phi 76$ mm
- Applicable paper roll outer diameter: maximum $\phi 320$ mm
- Machine size: 1500x800x1700(mm)
- Power consumption: 220V 50Hz 2000W
