

TGJ-1 Cap Applicator

TGJ-1 Cap Applicator used for pasting cap on the packages. Rotary disk sorting mechanism, glue and cap feeding system adopt cam and servo drive system, continuous, high-speed paste.

TGJ-1 Cap Applicator adopts motion controller so as to ensure the smooth and high-speed running. The modular design makes the package type switching is more simple and fast. The high speed, high precision, high stability can save a lot of manpower cost and maintenance cost for customers.

Technical Parameters

Capacity	9000 packs/hour
Dimension	5320mm(L)×1510 mm(W)×2500mm(H)
Power Supply	380V AC/50Hz
Power	13Kw
Pressure	0.7-1.0Mpa
