

## *CF-30T Case Erectors*

The Youngsun CF-30T Carton Erector is an innovative new case erector that is capable of erecting and sealing cases with pressure-sensitive tape or hot-melt glue at speeds up to 25 cases per minute.

In addition to our already innovative and clean design, we incorporate scales and quick-release handles on every 25 to enable fast and easy changeovers. An easy-to-understand optional operator panel will guide the operator through the quick changeover process.

### **Technical Parameters**

Model	CF-30T
Power supply	380V 50Hz 1.8KW
Air pressure	6kg/cm <sup>2</sup>
Tape width	4.8-7.2cm tape max.Length 2km
Working speed	20-25cases/min work height 1120+-50mm
Case Size	250<l<w<w+h<700<="" td="" style="margin: 0px; padding: 0px;"></td>
Machine appearance dimensions	L 2800mm x W 1560mm x H2250mm
Machine weight	1100kg
Environment conditions	Humidity≤98% TEmperature 0-40°C
Optional	with "Nordson" hot glue machine
