

## *YS-80 Automatic Intermittent VFFS Packing Machine*

Lean machine concept enables cost-effective production. All the works of bag making, measuring, filling, sealing, cutting and counting can be done automatically, at the same time, it can also according to the demand of customers to add printer and other options. The touch screen operation, PLC control, drive stepper motor to control the bag length, stable performance, easy to adjust and accurate detection. Choose the intelligent temperature controller and PID control to ensure the error range of temperature controlled within 1 degree Centigrade

### **Technical Parameters**

Model	YS-80
Sealing Type	Back seal ing
Packing Speed	10-20 bags/min
Bag Size	Width : 40 - 210 mm
	Length : 40 - 250 mm
Measuring Scope	20-1000ml
Packaging material	BOPP/Polyethylene, Aluminium/Polyethylene, Paper/Polyethylene, Polester/Plated alumnium/Polyethylene, Nylon/CPP and so on
Total power	1.5kw
Gas source	≥0.4m /min
Outer dimensions (appr .)	720*3500*1920mm
Weight (appr .)	650kg
Power suppl y (optional)	220V /50Hz
