

## ***ZHFX-1936B Fully Automatic Capping Machine***

### **Product Description**

1. This machine can be used in various configurations containers and irregular containers.
2. When cap tightening finished, bottle and cap relatively stop.
3. Clutch separate, bottle and cap are not injured.
4. Production capacity: 6 heads 4800 bottles/hour; 8 heads 6000 bottles/hour

### **Major Characteristics**

This machine has eight mechanical hands, dispatches caps in high speed with no inverse cap, which can be used in various configurations containers, irregular containers. It can be divided into scrape capping and grasp capping according to different caps. Supply cap machine and mechanical hands working with synch. When cap tighten finished, bottle and cap relatively stop. Clutch separate, bottle and cap are not injured.

### **Parameter**

- Power supply: AC220V; 50Hz
- Power: 1.5kw
- Weight: 680kg
- Suitable container:
- Height: 80mm~280mm
- Diameter:  $\Phi 30\text{mm} \sim \Phi 100\text{mm}$
- Production capacity:
  - heads 4800 bottles/hour
  - heads 6000 bottles/hour
- Suitable cap:  $\Phi \times H$ 
  - $\Phi 12\text{mm} \sim \Phi 50\text{mm} \times 15\text{mm} \sim 50\text{mm}$
- External dimension (L×W×H): 2000mm×1200mm×2300mm
