

SD-K Granular Packing Machine

Features:

1. This granular packing machine can automatically finish the processes of bag making, metering, filling, cutting, counting and batch number printing.
2. It is equipped with photoelectric tracking system and computer control system. The computer control system is capable of guaranteeing accurate tracking, easy bag-length setting, automatic alarming, packing-number displaying, and high-speed packaging.
3. High-speed printer is designed to automatically print the batch number, storage life, etc.
4. Its suitable packing materials mainly consist of paper / polyethylene, cellophane / polyethylene, polyester / aluminum / polyethylene, polyester / polyethylene, BOPP films, tea filtering paper, and some other heat-sealable composite packaging materials.

Small Size Granular Packaging Machine

1. Applications of Small Size Granular Packaging Machine:

This small size granular packaging machine is mainly used for packing loose cohesion less powder materials, like coffee, sugar, salt, monosodium glutamate, spices, granule medicine, desiccant, tea, plant seeds, and more.
