

MCGD8-200 Coffee Powder Packaging Machine-Fully Automatic Powder Packaging Machine

Marchi Packaging Equipment is a 27-year-old factory specializing in fully automatic coffee powder packaging machines, capable of packaging flour, starch, sugar powder, multigrain flour, corn flour, oat flour, rice flour, buckwheat flour, whole wheat flour, glutinous rice flour, pea flour, mung bean flour, sweet potato flour, potato flour, and more. For the automatic powder packaging machine and fully automatic powder packaging machine production line you need, you can click for details to learn

Equipment Introduction

1. Packaging Process: bag feeding – coding – zipper opening – bag opening – weighing & filling – cleaning – heat sealing – shaping
2. Easy operation: PLC control with human-machine interface
3. Convenient bag width adjustment: motor-driven control; all grippers can be adjusted synchronously with one button
4. No bag or incomplete bag opening, no filling; no bag opening, no material discharge; no bag or no filling, no sealing
5. Optional alarms and shutdown for door open, no ribbon, insufficient air pressure, abnormal sealing temperature
6. Parts in contact with materials are made of 304/316 stainless steel or food-grade plastic, meeting hygiene requirements

Equipment Parameters

- Model: MCGD8-200
- Packaging Size L×W (mm): (100–300) × (100–200)
- Packaging Speed (bags/min): 25–90
- Applicable Materials: PE composite film, aluminum foil film, aluminized film, and other composite films
- Applicable Bag Types: Stand-up pouch, zipper pouch, spout stand-up pouch, flat pouch
- Bag Width Adjustment: Automatic adjustment
