

HLG Series Automatic Semi-Fluid Filler

It is applicable for packing foodstuff, drinking, daily chemical industry, medicine, oil industry with different viscosity, water aqua, grease, fruit juice.

Product features:

1. It can fill all kinds of PET bottles and glasses bottles.
2. The time, speed adjustment and automatic full flow are finished by PLC system.
3. It is of simple operation, lower noise and high precision filling.
4. There is an anti-leaking device in each filling nozzle.
5. In the filling nozzle is an anti-leaking device. The body and parts touching the raw materials are made of stainless steel.

Technical parameters:

Model	HLG-4	HLG-6	HLG-8
Filling capacity (ml)	100-500	100-500	100-500
Filling speed (bottle/min)	600-1200	900-1800	1200-2400
Bottle diameter (mm)	50-90	50-90	50-90
Bottle height (mm)	90-320	90-320	90-320
Power (KW)	0.97	1.3	1.72
Air power (Mpa)	0.6	0.6	0.6
Air consumption (L/min)	200	250	300
Dimension (mm)	2000*1100*1710	2150*1100*1710	2440*1100*1710
Weight (kg)	470	550	650
