

JS-78G Automatic Ultrasonic Sealing Filter Paper Doypack Bag Drip Coffee Packaging Machine

The automatic drip coffee packing machine is designed to automatically form, fill, and seal drip-style coffee bags, then fill and seal premade bag, which are gaining popularity for their convenience and freshness.

Feature

1. This machine can automatically complete a series of processes such as film feeding, metering, bag making, filling, and sealing.
2. The prefabricated outer bag is used to make the finished product more flat and beautiful.
3. The inner bag is sealed with ultrasonic waves to save the filling space of the inner bag.
4. The machine parameters are set through the touch screen, which supports multiple languages and is easy to operate.
5. All contact materials are made of SUS304 stainless steel to ensure the hygiene and reliability of the product.

Specification

Packing Speed	20-35 bags/min(depend on materials and film)
Filling Range	5-10g
Inner Bag Size	Length:70-80mm, Width:80-95mm
Outer Bag Size	Length:125-130mm, Width:100-120mm
Machine Size	1249(L)*975(W)*2243(H) mm
Voltage	220V, 50/60Hz
Power	3.7Kw
Machine Weight	440KG
