

SED-7200SCGF-K Professional Automatic Plastic Cup Forming Filling Sealing Machine

SED-7200SCGF-K Automatic Plastic Cup Forming Filling Sealing Machine is a high-tech equipment, which is R&D by our professional technical team. It adopts PLC and touch panel, speed inverter control, high automation, easy operation, stable and reliable working.

This machine is widely used for PET cup water and PS cup yoghurt, such free-flowing liquid or semifluid packaging. It is equipped with high automation: from PS/PET sheet roll feeding, heating, cup forming, filling, sealing, date printing, cutting, finished products conveying out fully automatic working. Whole machine could achieve GMP standard, packaging products safety and health.

Product Parameters

Model	SED-7200SCGF-K
Material	Stainless Steel
Capacity	6000-7200 cups/hour
Stroke	40-160mm
Voltage	3 Phase, 4-wire, 380V/50HZ
Air Pressure	0.4-0.6MPa
Weight:	2200kg
Size:	4500x780x2000mm
