

SED-8S High Efficient Capsule Counting Machine

The automatic pill counting machine incorporates 8 counting channels. The compact design of the dual track conveyor increases output capacity. Equipped with an advanced inspection system, it can count and fill all standard and irregular shapes and all sizes of tablets, capsules, caplets, softgels with 100% accuracy.

Main Features of Capsule Counting Machine

- With touch screen ,easy to operate
- Avoid the materials jam
- Hopper mouth of the special structure, to prevent the materials jam, small mouth bottle can quickly bottling
- Protect materials from harm
- Feeding evenly with quiver, special patent filling part, no breakage of the material.
- Detection and sorting function
- No bottle will not count and fill. Automatically remove bottles of filling abnormalities and broken tablets.
- Self-diagnose errors and stop working to make alarm at errors.
- Anti-dust Using our own original high anti-dust sensor technology, the machine works accurately with good stability in heavy dust conditions.

Technical Parameters

Item	SED-8S
Production Capacity:	20-80 bottles/min
Voltage	220V/110V/380V
Power(W):	1200W
Weight	420KG
Dimension(L*W*H):	1360*1350*1650 mm
Certification	ISO 9001 CE
Material	316L Stainless Steel
Capsule size:	000-5 and soft capsule
